

# Make Your Own Turtle

Supplies needed:

Small paper plate

Green construction paper

Googly eyes

Glue stick

Green acrylic paint

1. Lay paper plate face down and paint the bottom green.
2. Cut head, tail, and four leg shapes out of the construction paper. Glue them to the unpainted side of paper plate.
3. Add googly eyes or draw eyes with a marker.

Enjoy your turtle!

For extra fun, decorate the turtle's shell with beads, sequins, tissue paper, or you could draw a natural turtle shell pattern on it! We've added a sample below.
