

MAKE SHARK BINOCULARS

Supplies

- 2 Toilet Rolls
- Cereal box cardboard
- Scissors
- Tempera Paint
- Paint Brush
- Scissors
- Black Sharpie Marker
- Hole Punch
- Hot Glue Gun
- String
- Beads (optional)
- Googly eyes

Instructions

1. Cut mouths and pointy teeth out of one end of each toilet paper roll.
2. Glue the toilet paper rolls together side by side so that the mouths are on the same end
3. Cut two shark fins out of the cereal box cardboard and, using the hot glue gun, glue them to the top of the toilet paper rolls
4. Paint the toilet paper roll sharks whatever color you want your sharks to be. Darkish blue or grey works well but you can use whatever color you like.
5. Once the paint is dry, add your googly eyes and use the Sharpie to draw the sharks' gills.
6. Punch a hole in the outer side of each roll for your string. If you like, you can put some beads on your string before attaching it to your binoculars. Have fun with your new toy!
